BYRNA DUO PERSONAL ALARM AND PEPPER SPRAY HOLDER

TWICE THE PROTECTION | 130dB PERSONAL SAFETY ALARM + PEPPER SPRAY WITH TEAR GAS |

BYRNA DUO PERSONAL ALARM AND PEPPER SPRAY HOLDER

TWICE THE PROTECTION | 130dB PERSONAL SAFETY ALARM + PEPPER SPRAY WITH TEAR GAS |

BUNDLE INCLUDES:

- 1x Byrna Duo personal alarm
- 1x Inert 0.5 oz Spray
- 1x BGR Max 0.5 oz Spray
- 1x Charging cord (USB-C)
- 1x Carabiner

WHEN TO USE IT:

This device is intended for emergency situations where you feel unsafe and wish to alert people around you that you are in need of assistance or scare off attackers.

SOME EXAMPLES INCLUDE:

- A.** A suspicion that you are being followed when you're out walking alone.
- B.** You observe a potentially unsafe situation nearby—a suspicious person approaching children—for example, and want to attract attention to scare away the attacker.
- C.** You require immediate assistance and cannot reach help with your voice.

WHAT IT DOES:

When the device is activated, it will continuously emit a very loud alarm (130 dB) until it's deactivated. The addition of our 0.5 ounce BGR MAX self-defense spray allows you to spray the threat with an effective distance of 8-12 ft. The spray canister is fully replaceable.

United States Patent Pending

HOW TO USE IT:

1. To activate the alarm press the activation button on the front of the device **TWO** times. To stop the alarm, simply press the activation **TWO** times and the alarm will turn off.
2. To activate the Bad Guy Spray turn the locking portion of the spray activator button to the center position with the outlet pointed towards the threat.
3. Press the Bad Guy activation button downward to spray. Each canister houses enough for a full 6-second blast. Your device comes with an inert spray canister for practice use, as well as a BGR Max 0.5 oz Spray for your personal protection.

CANISTER INSTALLATION AND REMOVAL:

4. Insert the spray canister into the device with the spray outlet pointed through the U shaped portion of the device. Firmly press into place and turn the activation lever to the lock position.
5. To remove and replace the canister there is a hole in the bottom of the device that allows the use of a blunt object like an unsharpened pencil to be used to push the canister out of the body of the device. Do not use any object that may puncture the canister!

RECHARGEABLE BATTERY

6. Simply use the included USB-C charging cable to recharge the battery. ***We suggest recharging every three months to ensure best results and volume.***
